REASONS FOR ALLOWANCE

1. Claims 1, 4, 5, and 10-12 are allowed.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach and/or suggest a detector of liquid consumption condition comprising, in combination with the other recited elements, a first piezoelectric device that can cause a first vibrating part to vibrate and that can generate a counter electromotive force signal based on a residual vibration of the first vibrating part, a second piezoelectric device that can cause a second vibrating part to vibrate and that can generate a counter electromotive force signal based on a residual vibration of the second vibrating part, and a liquid consumption condition detecting part that can detect the liquid consumption condition based on the counter electromotive force signal from at least one of the piezoelectric devices, the counter electromotive force signal being derived from the residual vibration of the vibrating parts.

The closest art is that of **Anderson (WO 98/09139)** and **Murata et al. (JP 58-201027)** which disclose level (or consumption condition) sensors. However neither reference discloses utilizing the residual vibration found in the sensors to determine the presence of the liquid or toner at the sensor height as found in Applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rose M. Miller whose telephone number is 571-272-2199. The examiner can normally be reached on Monday - Friday, 7:30 am to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on 571-272-2208. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
